Wintertime along the Volcanic Legacy Scenic Byway

While summer is the most common time for travelers, wintertime offers an astounding number of activities along the Volcanic Legacy Scenic Byway (VLSB). Skiing, snowboarding, snowshoeing, snowmobiling, sledging, and ice skating are some common winter activities you can enjoy amidst the snow-covered volcanoes. Less commonly known activities to enjoy are spelunking (caving), bird watching, chasing waterfalls, photography, and fishing.

In addition to these activities, special events also make the VLSB region unique this time of year. Three annual sled dog races are scheduled in Chester and Weed, CA and in Chemult, OR. The Winter Wings Festival, occurring on President's Day Weekend in Klamath Falls, is another winter highlight.

Crater Lake,, NPS

Presented by the Audubon Society, this festival draws bird-lovers nationwide. In this edition of the newsletter, we invite you to learn about what the VLSB region has to offer. You may also wish to keep this list handy as it contains the contact numbers for area National Parks, State Parks, Visitor Centers, Chambers of Commerce, Forest Service offices, and related organizations.

Message from the President:

There's nothing like cross-county or downhill skiing in a winter wonderland. You only need snow! As I write this, my family and I are still hiking, picnicking, cutting firewood and enjoying the outdoors on days that seem more like spring than winter. Rest assured, the forecast this week is for some snow, so I hope to be putting on my skis and hitting the trails very soon. This issue of the Volcano Review is all about the numerous opportunities along the Byway for you to enjoy winter sports – both motorized and non-motorized. From guided interpretive snowshoe walks to deep powder snowmobiling, winter adventures are waiting for you.

It has been a year since I assumed the office of President of the Volcanic Legacy Community Partnership and a busy one at that! We elected five new directors, elected new officers, and turned our focus to implementing four outstanding grants that were in various phases of completion. We even updated the Byway website so check it out.

In 2012, we will finish writing an Interpretive Plan for the Lassen and Tule Lake areas of the Byway. A new Byway map will also be printed for distribution and posted on the website for downloading. It highlights all the things there are to see and do along this remarkable "volcano to volcano" drive. A Byway Driving Guide is the next grant project along with further website enhancements to showcase Byway communities and provide mobile applications.

If we can help promote your community or Byway site, please call our phone number or send us an e-mail at:

info@volcaniclegacybyway.org Many thanks to all our Byway partners who made 2011 a successful year and who have already launched into 2012 marketing work!

Elizabeth Norton

VOLCANO REVIEW Things To Do in Winter

January

Sat-Sun Jan 21-22:

18th Annual Chemult Sled Dog Races

Cancelled due to the season's late arrival of snow

Mushers from as far away as Arizona, Michigan and British Columbia have made the trek to compete at one of Oregon's best kept secrets—the trail system on the Fremont-Winema National Forest beginning at the Walt Haring Sno-Park. A food concession is on site and there are special events for the kids such as a snowman making contest, coloring contest, and a Peewee race.

<http://www.sleddogchemult.org>
Chemult, OR

Sat-Sun Jan 28-29, 12-4pm:

Chester Winterfest Sled Dog Races

Sierra Nevada Dog Drivers will race at the Four Corners—Hwys 89 & 36 behind Cedar Lodge—for an exciting winter event open to those who wish to compete, view the races or volunteer. Call Hugo Antonucci at (503)404-0799, the Lake Almanor Area Chamber of Commerce at 1-800-350-4838 for details, and see <http://www.sndd.org/> for information. Chester, CA **Due to late arrival of snow, this event will be re-scheduled. See web-site.**

Saturdays and Sundays in January:

Ranger-led Snowshoe Walks at Lassen Volcanic National Park, Crater Lake National Park. See article on page 6.

February

Sat-Sun Feb 11-12:

Siskiyou Sled Dog Races 2012

Come to the mountains of Northern California to view, compete, or volunteer at these exciting races. Called the "Great Race of Mercy," this event qualifies participants for the Iditarod race in Alaska today. Located at Deer Mountain/Chuck Best Snowmobile Park, just 16.8 miles north off of Weed on Hwy 97. Watch for Signs. An alternate site at Four Corners will be available if snow conditions at Deer Mountain are marginal. Find the most current information at <http://siskiyouleddograces.com>

or call (530) 598-0466 or (530) 467-3009.
Weed, CA

Fri-Sun Feb 17-19: Winter Wings Festival

Plan to attend the 33rd Annual Winter Wings Festival on President's Day Weekend. Home to the largest concentration of wintering Bald Eagles in the lower 48 states in south-central Oregon and northern California, the Klamath Basin is a key stop-over on the Pacific Flyway. Hosting 80% of the birds that use the Flyway, a total of six separate nearby refuges comprise the total National Wildlife Refuge complex spanning nearly 200,000 acres. A unique, strong cooperative partnership between farming, water resources, and the refuges provides an abundance of prime habitat that attracts vast numbers of waterfowl and raptors. Expert speakers, photography workshops, and a unique opportunity to learn all about birds and wildlife. For registration, call 877-541-BIRD or 877-541-2473. See www.winterwingsfest.org
Klamath Falls, OR and Tulelake, CA

Sat Feb 18, 8:30am-3pm: Lake Almanor Snowmobile Club's Annual Poker Run

Bring your family to enjoy miles of groomed trails at the Chester-Lake Almanor Snowmobile Park located at junction of Hwys36 & A13. A fun-filled day of snowmobiling, poker-run awards, raffle prizes, and lunch. Alternate date set if snow levels are low on March 3, 2012. See website: http://chamberorganizer.com/chesterlakealmanor/mem_SnowmobileClub
Chester, CA

Saturdays and Sundays in February:

Ranger-led Snowshoe Walks at Lassen Volcanic National Park, Crater Lake National Park. See article on page 6.

March

Saturdays and Sundays in March: Ranger-led Snowshoe Walks at Lassen Volcanic National Park, Crater Lake National Park. See article on page 6 for more information.

April

Saturdays and Sundays in April:

VOLCANO REVIEW – The Powder Days' Craze: Snowmobiling along the Scenic Byway

By Allison Scull

Looking for something fun to do this winter?

The 'powder days craze' is just about to begin. The Volcanic Legacy Scenic Byway's vast snowy-white beauty offers ample opportunities for snowmobiling--or as winter sports enthusiasts call it, "sled-heading" or "sno- moin".

Spanning the VLSB's two-state byway designation--through aspen groves, conifer forests, and crystal lakes--you'll find gentle trails to adventurous climbs. With a map in hand, a list of hot spots and phone numbers and, of course, a snowmobile, you are ready to go. Beginning on the Crater Lake region in Southern Oregon, you will find some ideal

Lake Almanor Area Chamber of Comm.

spots around Diamond Lake, Prospect and Chemult where warming huts and parking places are abundant. According to Dustin Higgins of the Diamond Lake Ranger District, "The area is heavily timbered and varies in elevation. You will also find a large concentration of elk, deer and ample opportunities for ice, stream, and lake fishing."

Heading south of Crater Lake into the California portion of the Byway, you'll find yourself in the 230 mile long Tri-forest Snowmobile Trail system within the Klamath, Modoc, and Shasta-Trinity National Forests. In this region, you'll find gentle trails to wild and adventurous hills.

North of Lava Beds National Park, near Medicine Lake, you will find the Four Corners Snowmobile Park and Door-knob Snowmobile Park. These spots are pristine and less traveled.

Off of Hwy 97 (16 miles north of the Central Weed exit on I-5), you will find Deer Mountain/Chuck Best Memorial Snowmobile Park. Here, you can rent snowmobiles from the Fun Factory by calling (530) 926-5387. Owner of the Fun Factory Michelle Cloutier-Valdes says, "With harnesses for children, snowmobiling is a definite family sport!" The Fun Factory operates under a special use permit issued by the Klamath, Shasta-Trinity, and the Modoc National Forests.

Traveling three miles south of McCloud on Hwy 89, you will find Pilgrim Creek. To get there, take a left onto Forest Service Road #13 for seven miles to Pilgrim Creek Snowmobile Park. With open expanses, and a quiet solitude you

can view mighty Mount Shasta in its many snow-capped moods.

Further south into the Lassen National Forest, take Hwy 89 south and then Hwy 44 southwest to the Ashpan Snowmobile Park. Other snowmobile parks include: Morgan Summit (off of Hwy 36 west of Chester), Swain Snowmobile Park (on County Road A-21 north of Westwood), and Fredonyer Park and the Chester-Lake Almanor Snowmobile Park (on Hwy 36 between Chester and Susanville.)

In the Chester-Lake Almanor area, three mountain ranges converge--the Cascade Range, the Sierra Nevada, and the High Desert--to create varied terrain with views of Lassen Peak from almost any trail. At the western side of Lake Almanor you can also find Jonesville Snowmobile Park trail system, near Butte Meadows. According to Secretary of Lake Almanor Snowmobile Club, Katherine Templeton, "This area provides 450 miles of groomed trail systems for beginners to extremists." For more information on the club and to meet other snowmobile enthusiasts, call Jenni Cesarin at (530) 284-7469.

VOLCANO REVIEW – Wintertime along the Volcanic Legacy Scenic Byway

Birdwatching & the Bald Eagle of Winter

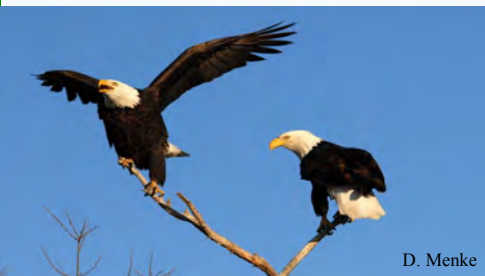

Winter is one of the best times to go bird watching, especially if you want to see Bald Eagles. In Northern California and Southern Oregon, the Klamath Basin National Wildlife Refuges (KBNWR) attracts birds of almost historical proportions. The winter migration offers the largest concentration of Bald Eagles in the contiguous 48 states. More than 1,000 Bald Eagles can be seen yearly.

In California, the auto routes in the Lower Klamath and Tule Lake Refuges make ideal viewing spots. In winter months, a large number of other raptors including Golden Eagle, Northern Harrier, Red-tailed Hawk and Rough-legged Hawk may also be found. Waterfowl on the refuges increases dramatically in February with the arrival of the first northbound migrants. The Lower Klamath auto route on Stateline Road (Hwy 161) and the Tulelake auto tour—beginning 4 miles south of the Refuge Visitor Center on Hill Road—offer about 20 miles of bird watching.

In Oregon, Bald Eagles can be seen foraging during late February and March at the Miller Island Wildlife Viewing Area—a 2.5 mile pedestrian wildlife viewing loop that is open all year. Populations of up to 35,000 white geese

(Snow and Ross's) may also be seen in the late winter and early spring staging for their northern migration as well

D. Menke

as other waterfowl. From the Stateline drive north for 11.5 miles on Hwy 97, take a left on Miller Island Road. Many Bald Eagles are also easily spotted at the urban Link River and Lake Ewauna Nature Trails in nearby Klamath Falls and on Hwy 140, the Byway that follows the west side of Upper Klamath Lake.

Formerly called the Bald Eagle Conference, the 33rd Annual Winter Wings Festival in Klamath Falls, Oregon, occurs on February 17-19. It is another fantastic way to learn about the birds in our area. (See our Events Calendar on page 2 for specific details.) Although Bald Eagles were officially listed as endangered in 1967, the U.S. Fish and Wildlife Service up-graded the status to "threatened" in 1995. The Bald Eagle is one of the few species that have fought their way back from the endangered species list along with the California Gray Whale and the American Alligator. For more information on bird watching, call the KBNWR Visitor Center at (530) 667-2231.

by Allison Scull

Dog and Man: Sled Dog Races along The Volcanic Legacy Scenic Byway

by Allison Scull

Known as the "Great Race of Mercy", twenty mushers and one hundred-sixty sled dogs delivered diphtheria serum 674 miles by dog sled across the U.S. territory of Alaska in 1925--saving the town of Nome from an epidemic. In Alaska today, this historic event is commemorated with the world famous Iditarod Sled Dog Race.

Keeping the spirit of this famous race alive in Northern California, a qualifying race for the Iditarod race will occur in Siskiyou County. In addition, the longest running sled dog race in California takes place in Chester.

M. Gibson

The Siskiyou Sled Dog Races occur just north of Weed on Hwy 97, at Deer Mountain/Chuck Best Snowmobile Park on February 11th and 12th. In Chester, the Sierra Nevada Dog Drivers will organize the Chester Winterfest Races. On January 28-29, many dogs and mushers will be getting ready at the four corners—Hwy 36 and Hwy 89—behind Cedar Lodge.

According to Vice President of the Sierra-Nevada Dog Drivers, Van Peeke, "Most of the dogs participating in these races are Alaskan Huskies and Euro-hounds. They are the fastest." He adds that "Siberian Huskies, who are also often show dogs and part of the American Kennel Club, run these races."

Just over the border into Southern Oregon at the Walt Haring Sno-Park in Chemult, the Chemult Sled Dog Races occur on January 21- 22. According to the Klamath County Visitors' Bureau, this year "you may get a chance to meet Klamath Country's 2008 Iditarod Participant Liz Parrish and her fabulous sled dogs. She completed the approximately 1,100 mile race in Alaska with 14 of her 16 dogs."

See Events Calendar for specific event information. It is recommended that you call or look online for updated information due to varying snow conditions.

Snowshoeing: Ranger-led Programs along the Scenic Byway

Snowshoeing was practiced in central Asia about 6,000 years ago. It is believed that ancestors of the Inuits and Native Americans migrating from Asia to North America, brought snowshoes with them—which were nothing more than modified slabs of wood at the time.

Snowshoeing was used primarily for employment and survival until the 1970’s. Today, it is a recreational sport and a way to enjoy the great outdoors in winter.

On the VLSB, you can enjoy snowshoeing wherever you see snow or on typical walking or hiking trails. You can also participate on ranger-led snow-shoe walks.

At Lassen Volcanic National Park (LVNP) ranger-led walks are offered on the weekends, at 1:30pm on weekends, starting at the Kohm Yah-mah-nee Visitor Center (south entrance). Snowshoes are supplied by LVNP for a \$1 donation. For details, call (530) 595- 4480. To schedule a group snowshoe walk, call (530) 595-6132 or (530) 595-6133. New this year, rangers will lead more challenging snowshoe hikes to Ridge Lakes. Although LVNP is open all year, the main park road closes at the northern entrance at Manzanita Lake after the first significant snowfall and does not reopen again until road clearing, usually in late June.

Crater Lake National Park’s ranger-led snowshoe hikes begin at 1pm from the Steel Visitor Center on Saturdays and Sundays. Call the visitor center at (541) 594-3100 for information and to reserve a spot. Tours fill up fast. Tours of 15 or more people can also be arranged ahead of time.

The Lassen National Forest will also be hosting a series of snowshoe walks. For information on these contact the Lake Almanor Ranger District at (530) 257-2151 and the Eagle Lake Ranger District at (530) 257-4188.

Most winter recreation is dependent on snow levels. Please check snow levels and road conditions before departing on your trip. Use necessary precautions for winter driving. See Road Conditions phone numbers on page 5.

“Snowshoeing was used primarily for employment and survival until the 1970’s. Today, it is a recreational sport and a great way to enjoy the great outdoors in winter ”

Winter Staging Areas on your Volcano to Volcano Journey

Heading north from the southern portion of the Byway in Northern California into Southern Oregon...

Hwy 36: Mineral to Chester

McGowan Cross-Country Ski Trail: Skiers can enjoy 10 miles of trails with gorgeous views of Lassen Peak. Near the southern entrance of Lassen Volcanic National Park. On Hwy 89, 2 miles north of Hwy 36.

Morgan Summit Winter Staging Area: This park offers 77 miles of groomed snowmobile round trip and loop trails and doubles as a mountain biking trail in the summer. 25 miles west of Chester.

Around Lake Almanor:

The Lake Almanor Recreational Trail offers 11 miles of trails on the west side of the lake. 5 miles south of Chester on Hwy 89.

Hwy 36: Chester to Susanville

Chester-Lake Almanor Winter Staging Area: This winter staging area offers 62 miles of groomed trails for snowmobilers and cross-country skiers. at the junction of Hwy 36/A13

cont'd on page 7

Winter Staging Areas (continued) & Less Common Adventures

Swain Mountain Winter Staging Area: Considered the hub of Lassen National Forest trail system, you will find 60 miles of groomed snowmobile and cross-country ski trails that tie into other trail systems. From Susanville, drive 21 miles west on Hwy 36 and then 11 miles north on A-21.

Fredonyer Winter Staging Area: A great launching spot for snowshoeing, cross-country skiing and snowmobiling with about 68 miles of groomed trails. Offers views of the Great Basin and the high country around Lassen Peak.

Hwys 36 and 44: Susanville to Old Station

Goumaz and Hog Flat Cross-country Ski Area: These gentle slopes offer a 6 mile loop. Great for beginning skiers with views of volcanic peaks up to 7,000 feet. Park off of Hwy 44 at Goumaz Rd. & Forest Service Rd. 30N03 intersection.

Bogard Rest Area and Winter Staging Area: This is a winter playground with wide open meadows of the Pine Creek Valley on 80 miles of groomed snowmobile and cross-country trails. 5 miles west of Chester.

Hwy 44/89: Old Station south to LVNP

Ashpan Winter Staging Area: This area offers 85 miles of groomed snowmobile and cross-country loop trails and links to the LaTour State Forest snowmobile trail system.

Eskimo Hill Winter Play Area: Offers sledding, tubing, picnicking, and family fun in the snow. 13 miles south of Old Station Hwy 89/44.

Hwy 89: McCloud to Mt. Shasta

Pilgrim Creek Trail: Offers miles of open expanses and views of majestic Mount Shasta in its many snow-capped moods, tying into a 230 mile tri-forest groomed snowmobile trail system. Access is three miles south of McCloud on Hwy 89. Travel east onto Forest Service Rd. #13 .

Snowman's Hill Winter Play Area: Sledding, tubing, winter fun for hours of family fun. Corner of Hwy 89 and Ski Park Hwy.

Mt. Shasta Nordic Center: About 12 miles of groomed trails. 3 miles north of Hwy 89 on ski park Hwy. www.mtshastanordic.org

Mt. Shasta

Mount Shasta: Cross-country skiing and snowshoeing on top of a composite volcano at Bunny Flat, Sand Flat. Take Lake Street east from downtown Mt. Shasta and then turn left on Everitt Memorial Hwy for 13 miles.

Lake Siskiyou Trail: Weather permitting, this is a fun place to snowshoe in winter. From the central Mt. Shasta exit off of I-5, turn west to stop sign at Old Stage Rd. and turn left. Keep right onto W. A. Barr Rd. to Lake Siskiyou about 3 miles west of Mount Shasta.

Hwy 97 North of Weed, CA

Deer Mountain Chuck Best Memorial Snowmobile Park:

Situated on top of a shield volcano, this park intertwines with a 230 mile snowmobile trails system through the Klamath, Modoc, and Shasta-Trinity National Forests and hosts the annual Siskiyou Sled Dog Races each winter.

Hwy 97 Oregon Border to Klamath Falls

Ice-skate at Bill Collier Community Ice Arena:

5075 Fox Sparrow Dr, Klamath Falls, OR 97601 non-profit organization dedicated to ice skating sports/arts. <http://klamathicesports.org/>

To Crater Lake National Park

Annie Creek Recreation Area: Located near the southern entrance of Crater Lake National Park, winter sports such as cross-country skiing, snow-shoeing, and snowmobiling can be enjoyed here.

Crater Lake National Park: The park offers many miles of trails for cross-country skiing and snowshoeing. Hwy 62 and the road to Rim Village (Munson Valley Road) are plowed and open all year. However, snowy and icy road conditions can occur anytime, resulting in temporary road closures.

Less Common Winter Adventures

Perhaps less common but equally adventurous, you can explore caves (known as spelunking) or chase waterfalls in winter. Not only can you enjoy free hot chocolate and tea at the Visitors' Center at the Lava Beds National Monument, you will be given a flashlight for the day for free. Interestingly enough, the caves, at 55 degrees, are warmer than the outdoor temperature. Call (530) 667-2231 for details.

You can also view a gorgeous 128-foot waterfall at McArthur-Burney Falls Memorial State Park, which is open all year around along with many campsites. Call (530) 667-8100 for more information.
